Panaromic Radiograph- An Interactive Workshop

2nd & 3rd March 2020; 9.00 am - 5.00 pm

**Venue: Faculty of Dentistry, Level 2, Lincoln University College,
No. 2, Jalan Stadium SS7/15, 47301, Petaling Jaya, Malaysia**

Panaromic radiograph (PR) or Orthopantomogram (OPG) is a routinely used radiograph that has wide range of application in dentistry. Analysis and good interpretation of PR is pivotal for diagnosis and appropriate treatment planning

Course Content

- ◆ Indications of Panoramic Radiograph
- ◆ Radiation Safety
- ◆ Common Faults in PR and its prevention
- ◆ Patient Management
- ◆ Practical Sessions using equipment and digital analysis
- ◆ Interpretation of pathologies in a Panoramic Radiograph

Facilitators

A/P Dr. Subashini Suyambukesan

BDS, MDS, FICD, FADI.,
Oral Radiology Program Coordinator,
Lincoln University College
Director for Malaysia in Asian Academy of Oral and
Maxillo Facial Radiology
&

Dr. Narendra Prakash Rai

BDS, MDS,
Primary Care Unit coordinator,
Lincoln University College

Participants – Category

Dentists/ Dental specialists - **MYR 250**

LUC alumni, Postgraduate Students (ID Required) - **MYR 150**

Undergraduate students (ID Required) - **MYR 100**
